

# Thermatic® Fans – Model Selection Guide

To assist your understanding of the correct selection of a Davies, Craig Thermatic® Fan, please observe the following:

» **Radiator cooling only:**

The Thermatic® Fan recommended to assist forcing cooler air through the vehicle's radiator thus removing excessive heat and lowering and/or maintaining the engine's coolant temperature. Select the approved Thermatic® Fan for your vehicle when replacing

the existing belt driven mechanical fan.

» **A/C Condenser cooling only:**

The Thermatic® Fan recommended to cool your vehicle's air conditioning condenser replacing an existing original equipment manufacturer's (OEM) air conditioning condenser fan or adding a fan to an existing A/C condenser.

» **Additional cooling only:**

The recommended Thermatic® Fan to provide an extra cooling boost to your existing belt-driven fan or electric fan under extreme ambient conditions.

**Note:** If you are removing your mechanical belt-driven fan or Fan Clutch and converting to a total electric Thermatic® Fan

engine cooling control system and your vehicle is fitted with air conditioning, it may be necessary to fit Thermatic® Fans listed from both the 'Radiator Cooling Only' and 'Condenser Cooling Only' Electric Thermatic® Fans from the Model Selection Guide.

## Customised Chrome Fans

A Davies, Craig Customised Chrome Thermatic® Fan Kit is ideal for the open engine compartment street rods, show cars, custom cars and high performance vehicles. Limited Edition chrome fan kits have been produced for the enthusiast to save you all the necessary time and effort when choosing that bright, stylised, effective fan for your vehicle.

- » All Customised Chrome Thermatic® Fan Kits are suitable for both condenser and radiator cooling.
- » The Customised Chrome Thermatic® Fans provide; constant powerful air flow which increases air conditioning performance, cooler engine operation, low profile, high performance, increased engine power and lowers fuel consumption.
- » All Davies, Craig Thermatic® Fans offer reversible polarity and blades for bi-directional, upstream (pusher) and/or downstream (puller) air flow as standard equipment.
- » All Davies, Craig Customised Chrome Thermatic® Fan Kits are packaged complete with relay, wiring loom, mounting hardware and easy-to-follow fitting instructions for a quick and tidy installation.
